***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-2 and 3-20, drawn to a method for how to create a portable information agent, classified in class 709, subclass 203.
  - II. Claims 21-22, drawn to a portable information device, classified in class 369, subclass 29.02.
2. The inventions are distinct, each from the other because of the following reasons: Inventions I and II are disclosed as different combinations which are not connected in design, operation or effect. These combinations are independent if it can be shown that (1) they are not disclosed as capable of use together, (2) they have different modes of operation, (3) they have different functions, or (4) they have different effects. (MPEP 806.04, MPEP 808.01).

In the instant case, invention I is directed to a method comprises the steps for allowing user selecting original information object and downloaded the logic from the original application to create a movable information agent. The invention II is merely directed to a portable device, which has software object and external connections.
3. These inventions are distinct for the reasons given above, and the search

Art Unit: 2454

required for each Group is different and not co-extensive for examination purpose. For example, the searches for the four inventions would not be co-extensive because these groups would require different searches on PTO's classification class and subclass as following:

(a) the Group I search (claims 1-2 and 4-20) would require use of search **Class 709, subclass 203**.

(b) the Group II search (claims 21-22) would require use of search **Class 369, subclass 29.02**.

4. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
